

20 YEARS LATER. IT'S GOING TO BE ONE HELL OF A FAMILY REUNION.

Twenty years ago was the night **HE** came home. And so began Michael Myers' bloody reign of terror in John Carpenter's all-time classic thriller **HALLOWEEN** which introduced Jamie Lee Curtis to terrified audiences worldwide with her break-out performance as Laurie Strode.

Now, Laurie and Michael are about to meet again in **HALLOWEEN H2O**. On its 20th anniversary the legendary scream queen is back to put evil in its place...for good.

Bring Michael Myers back to life this Halloween weekend by cutting out this mask - the best-known mask in horror film history!

Directions: Simply paste the mask onto a thin piece of cardboard, cut out the eyes and nostrils, make a small hole in each side of the face and attach a length of string to hold it onto your face. Otherwise, just hold the mask up to your face when "trick or treating" for the instant scary look!
